

Upcoming Red Sea trip...

Simply the Best
16th – 23rd September 2011
 Aboard [M/Y blue Fin](#)

Itinerary Route:

Big Brother

A 400 metre long island offering fabulous wreck diving and wall diving. The wreck of the Numidia lies on the northern tip between 10 and 80 metres. The north-west side of the island houses the wreck of the Aida. On every section of this reef the wall is covered with corals and life.

Little Brother

Boasts a very high concentration of life within a very small area. Fan coral forests, overhangs, hard and soft corals in a variety of astonishing colours... and of course there are plenty of fish! With regular sightings of hammerheads, thresher sharks, grey sharks and white tip reef sharks, at the right time of year.

Daedalus

About 180 km south of The Brother Islands, this huge reef is surrounded by a sheer wall and strong currents allowing for fantastic drift diving. The hard corals grow to huge sizes but make sure you also keep an eye on the blue!

Elphinstone Reef

A Red Sea legend. One of the most beautiful reefs, with its north and south plateau's covered in hard and soft corals, this truly is an awesome reef.

All dive sites are subject to weather conditions and cannot be guaranteed.

£1149 per person all inclusive*

To include: return flights MAN -HRG, 7 nights full board accommodation on vessel, Marine Park Fees, Egyptian Entry Visa, Transfer from/to Hurghada airport, diving, single 12 ltr cylinder, lead weights, tea, coffee and softdrinks.
